

Editing a SmartMark

You can modify SmartMark settings such as the element to which the mark is anchored, the vertical and horizontal positions, and the rotation.

1. If the **Marks** tab is not currently selected, click the **Marks** tab.
2. Double-click the SmartMark that you want to edit.
3. In the [Marks Settings dialog box](#), make any necessary changes.
4. Click **Save**, **Save as**, or **Cancel**.
