

## Working with input file models

This section provides detailed scenarios for linking refined pages in each input file model. Using the retail catalog scenario described throughout the chapter, the following examples show how refined pages are linked to a versioned page.

- [Model 1 scenario](#)
- [Model 2 scenario](#)
- [Model 3 scenario](#)
- [Model 4 scenario](#)
- [Model 5 scenario](#)
- [Model 6 scenario](#)
- [Model 7 scenario](#)
- [Model 8 Scenario](#)
