

Adding a learning topic

You can add a learning topic as a PDF document, or as a video in either FLV or SWF format.

Requirements: You must have the Configure Learning Center right.

When you add a new learning topic, you can add a description of its content and a photo of the person who created it. These appear under **Details** in the Learning Center when you click the title name. You must also create a link that will open the document or run the video file.

Before a new topic can be seen in the Learning Center, you need to add it into the structure by placing it within a category or subcategory.

1. On the home page, click **Administration**.
2. In the **Administration** area, click **Learning Center**.
3. Click **Create Topic**.
4. In the Create Topic dialog box, in the **Topic Name** box, type a name for this learning topic.
The name appears in the **Topic** column in the Learning Center.
5. In the **Category** list, select the required category for this learning topic.
6. (Optional) In the **Description** box, type a description of the learning topic.
7. To insert a photo, a screenshot, a document, or video files, click the plus button .
8. In the Open window, locate and select the required document or photo.
9. Click **Open**.
The document or photo appears under **Content**.
10. Click **Create**.

Note: Following are the supported file types:

The following file types can be viewed in UI: .pdf, .flv, .swf, and .mov
