

# Requesting page approvals

You can ask a user to review and approve pages for color accuracy.

**Requirements:** Before the user is asked to approve color, a color target must be assigned.

1. Log on to Prepress Portal, and open the job that contains the pages you want the user to review.
2. On the **Pages** tab, select the pages that you want reviewed.
3. Click **Request Approval**.
4. Select the user who you want to review the pages.
5. Next to the user's name, select **Approve Color**.

**Request Approval**
