

Viewing a thumbnail

All sheets and proofs in the Queues window and Trash window have thumbnails. The thumbnail displays in the Thumbnail areas (see below) along with controls that allow you to manipulate the selected item.

- 1. In the Proofer Viewer, click the **Queues** [blocked URL](#) button.
- 2. Select a sheet or proof.

You cannot display multiple sheet thumbnails.

	No thumbnail can be displayed. No job, sheet or proof has been selected.
	No thumbnail can be displayed. Multiple jobs or sheets have been selected.
	Proof thumbnails display a graphic representation of a proof magnified to fill the entire Thumbnail area. Proof thumbnails only appear in the Trash window.
	Sheet thumbnails consist of thumbnails for all proofs on the selected sheet. The size of each proof is displayed relative to the size of the sheet. Sheet thumbnails include all the elements of the proof thumbnail.
