

# Activity 9: Create a PDF to PDF imposition plan using Preps Imposition Software and submit it to Evo

## Who should complete this activity

- Prepress operators who will be working with Preps Imposition Software
- System administrators

## Why you should complete this activity

Kodak Preps Imposition Software allows you to organize PDF and PostScript pages into reader order and associate the pages with templates representing each signature in your print job. Preps then creates an imposition file that contains all the information required by Prinergy Evo for output.

This activity refers you to the Preps Activity Guide to introduce the procedures for creating and submitting a PDF imposition file from Preps software to Prinergy Evo Workflow.

## Recommended reading
