Activity 17: Save and restore a Prinergy Evo server

Who should complete this activity

- System administrators

Recommended reading

Find and read these selections from the Kodak Prinergy Evo Workflow Administrator guide:

- How do I recover my Prinergy Evo system?
- Saving Prinergy Evo system configurations
- Restoring Prinergy Evo system configurations

Time required to complete this activity

60 minutes

What you'll learn

- How and why to perform each level of Prinergy Evo system reset.

What you'll need

For this practice activity, you must have a:

- Prinergy Evo server computer running and available to shut down and restart.
- Saved, compressed backup configuration file from a Prinergy Evo system

What you'll do

- Save the configuration of your Prinergy Evo system
- Reset a Prinergy Evo system
- Describe circumstances where each level of reset severity is appropriate
- Restore backed up Prinergy Evo system configuration settings
