

Activity 19: Update Prinergy Evo Software and roll back a software update

Who should complete this activity

- System administrators

Recommended reading

Find and read these sections from the Kodak Prinergy Evo Workflow Administrator guide:

- *Checking for and installing updates via Prinergy Evo Administrator*
- *Changing the Active Version*

Time required to complete this activity

45-60 minutes

What you'll learn

- How Prinergy Evo software updates are provided according to support contract entitlements
- How to automatically and manually check for available software updates
- How to update a Prinergy Evo system
- How to roll back a Prinergy Evo software update

What you'll need

For this practice activity, you must have a:

- Prinergy Evo server computer running
- Have access to the Partner Place support and service portal
- Have a software version update available to install

What you'll do

- Obtain a software update
- Update Prinergy Evo server software
- Change the active version of Prinergy Evo to a previous version
- Learn how Prinergy Evo uses Windows Registry settings and configuration files
- Compare and contrast Prinergy Evo update procedures, system recovery procedures, and system configurations to those of other workflow systems
