

Part D: Create an imposition (Workflow 1)

1. Click the **Impose-4up-ITP** processing step.
2. In the **Input Files** pane, select all of the files except `ITP_Fat.p0001.new.pdf`.
3. Click **OK**.
 - The animated cog behind the **Impose-4up-ITP** processing step indicates that Prinergy Evo is processing the files.
 - A green check mark confirms the imposition (JDF) file and virtual proof were created successfully.
4. Select the **Impose-4up-ITP** processing step.

Notice that the `ITP_Fat.p0001.new.new_impo.jdf` appears in the **Files Created** pane.
5. To view the imposed virtual proof in the Files Created pane, click the **OutputImposition-VPS-ITP** processing step.
6. Open any signature and click **Open** .

Processing for Workflow 1 is completed.
