

New features and enhancements

Support for Windows Server 2019

InSite Creative Workflow 9.2 system is now supported on Microsoft Windows Server 2019 Operating System.

Support for integration with InSite Prepress Portal 9.2 and MatchPrint Virtual 9.2

Integration with InSite Prepress Portal 9.2 and MatchPrint Virtual 9.2 is supported.

Oracle version update

Oracle is updated to version 19.0.0.0

Adobe PDF Library version update

Adobe PDF Library is updated to version 18.

License Auto Renewal failure notification

Prior to license expiration date, system will automatically attempt to connect to the license server to renew the license. If it fails, system sends an email notification to the Site Administrator to take necessary actions ahead of the expiration date.

Bug fixes
