Downloading files

Requirements: Your project role must include the Download Originals user right.

1. Select element(s) to download.
2. Perform one of the following actions:
   * Drag the elements directly to the folder, or to the desktop of your operating system's file directory.
   * From the **Download** menu, select **Original**.

   The download starts, or depending on the browser configuration, it may ask you to specify a download destination.
