

# ColorFlow 9.0.0 Release Notes

## New Features

### Support for X-Rite i1iPro3 spectrophotometer

- Support for hand-scan mode only

### Full support for Extended Color Gamut (ECG) process ink sets

- Up to 7-color ink sets with G7 compliance

### Adjustable 3/4-tone correction for gray balance curves

- Limits curve compensation for printing that has a strong CMY cast in 3/4-tones and shadows

## Problems Fixed

Issue Number	Description
CLRFLW-6713	Cannot enter measurement data into a CMYK in ColorFlow Workflow Edition.
CLRFLW-8533	i1iO Full Color Tonal Chart created with Front and Back forms has text overprinting swatches.
CLRFLW-8759	ColorEngine error when G7 curves defined for discontinuous flexo characterization using P2P51 chart
CLRFLW-8824	ColorEngine API error when generating G7 calibration curves
