Objective 5 — Save the job, and then output as a PDF file named Activity Sixteen

1. From the **File** menu, select **Save**.
2. In the Save As dialog box, locate where you are storing your activity jobs.
3. In the **Save As** box, type `Activity SixteenCADCorrect` and then click **Save**.
4. Perform one of the following actions:
   - From the **File** menu, select **Print**.
   - In the Pandora toolbar, click the **Print** icon .
5. In the Print Job dialog box, select **PDF File** from the **Destination** list, click the check box to **Embed the Die Outline**, and click **Print**.
6. In the Print File dialog box, locate the folder where you want to store the PDF file. Save the PDF file in the same location that activity jobs are stored.
7. In the **Save As** box, type the name `Activity SixteenCADCorrect`. Click **Save**.
8. Close the PDF and minimize the Pandora window.
9. Locate the activity job folder where you have stored your PDF output file and open `Activity SixteenCADCorrect.pdf`.
10. Proof the final output PDF file.
