# Objective 3—Import a die and artwork to the regional versioning job and position the artwork

Note: To enlarge an image so that you can view it in more detail, click it.
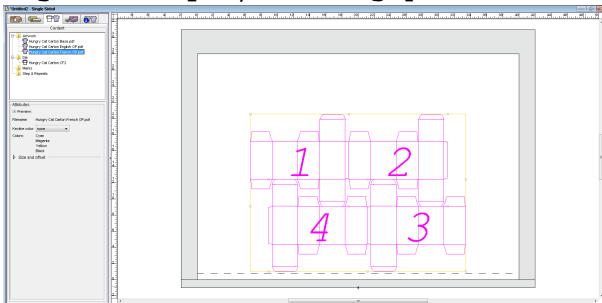

1. Perform one of the the following actions:
   - From the **File** menu, select **Import > Die**.
   - On the Pandora toolbar, click the **Import Die** icon ⊞.
2. In the Import Die dialog box, browse to the sample activity files and locate the `Hungry Cat Carton` folder.
3. Select the `Hungry Cat Carton.CF2` file, and click **Import** (Windows) or **Open** (Mac).

   Notice that the die file is automatically added to the **layout** view.
4. Perform one of the following actions:
   - From the **File** menu, select **Import > Folder**.
   - On the Pandora toolbar, click the **Import Folder** icon.
5. In the Import Folder dialog box, browse to the sample activity files, locate the `Versioning` folder and click **Import** (Windows) or **Open** (Mac).
   The Content tab should now list `Hungry Cat Carton Base.pdf`, `Hungry Cat Carton English OP.pdf`, and `Hungry Cat Carton French OP.pdf`.

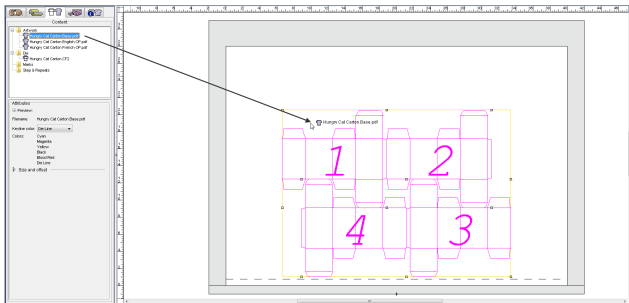

6. In the layout, use one of these methods to select the entire die. Confirm that you selected the entire die instead of only one die station.
   - In the **Content** tab, click the die file.
   - Or, select the line that encompasses all four individual die stations.

- Or, while pressing the Shift key, select each individual die station.

7. In the **Content** tab, select the `Hungry Cat Carton Base.pdf` artwork file and drag it to the selected die.

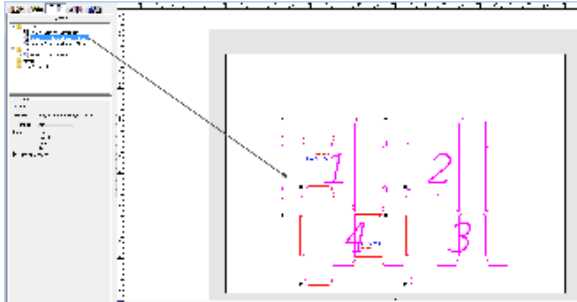

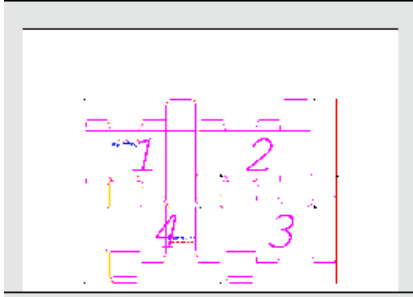

8. View the placed artwork.

9. From the **View** menu, select **Hide Artwork**.
10. While pressing the Shift key, select die stations 1 and 4.
    You can also select die stations by drawing a marquee around them.

11. In the **Content** tab, select the `Hungry Cat Carton English OP.pdf` artwork file and drag it to the selected die stations.

12. From the **View** menu, select **Hide Artwork**.

13. While pressing the Shift key, select die stations 2 and 3.

14. In the **Content** tab, select the `Hungry Cat Carton French OP.pdf` artwork file and drag it to the selected die stations.
