

Creating press run layouts

- Using the Layouts Search tool
- Building press runs using template, fold pattern, or step-and-repeat pattern resources
- Using AutoSelect to generate press runs from a run list
- Multiple imposition sections on a press run
- Creating an imposition without using a Layouts resource
- Creating a cut-and-stack press run
- Multiweb layouts
- Creating come-and-go layouts
- Creating a sub-section (ribbon) press with a Custom Fold Pattern
