

RBA setup

If you use Rules-Based Automation (RBA), you must configure user rights, file transfer settings, and e-mail.

- [Controlling who can use RBA](#)
- [Setting up e-mail service for RBA](#)
- [Handling rejected RBA e-mail messages](#)
- [Preparing for RBA e-mail if you use InSite Prepress Portal](#)
- [Setting up file transfers for RBA](#)
- [Enabling client computers to use RBA](#)
