

Kodak Product Development services for RBA

This topic outlines the terms of Kodak Product Development support for RBA.

SD-1007 US&C Professional Services - Custom Consulting (charge per Project)

Kodak Product Development assists you to develop customized RBA functionality for your production workflow.

Price

Quote on request.

Description

The Custom Consulting service provides RBA solutions outside our normal pricebook offerings. Price quoted upon request..

The service includes:

- Development of the Statement of Work (SOW), which describes the project's scope, timeline, deliverables, and associated costs.

Consulting projects require prior approval from Kodak Sales.

Project pricing is based on project length and required resources at a nominated price per day. The SOW must be signed by customer and submitted as part of the order.
