

Supported digital presses

The following table lists the Vendor/DFEs/Digital Presses supported with different Prinergy connectivity method for version 9.0.1 and above.

*JTE Method refers to the connection added via Setup and Send to Digital via Job Ticket Editor Window.

*Legacy Method refers to the connection added via Prinergy Administrator and Send to Digital via Digital Submit/Digital Direct.

Vendor / DFE / Digital Press	JTE Method	Legacy Method
Kodak Creo Server	Yes – Creo KM IC-314 only	Yes
Kodak Prosper	No	Yes
EFI Fiery Server	Yes	Yes
Canon (EFI Fiery Server 2)	Yes	No
HP SmartStream Print Server	Yes	Yes
Komori IJ Manager	Yes	No
Konica Minolta IJ Manager	Yes	No
Konica Minolta Controller	Yes	Yes
Kodak Nexpress	Yes	No
Ricoh Total Flow Print Server	Yes	No
Landa	Yes	No
Canon PRISMASync	Yes	No

The following tables list the digital presses that can be connected to Prinergy and the preferred submission options.

Depending on the digital front end, different types of submission are available.

Managed connections

The following tables list the options for managed-connection submission that are available for different digital press and front-end pairings.

Note: This list of supported presses is updated regularly. For more up-to-date information about supported presses, refer to the Web sites of the press vendors.

- (1) Indicates highest functionality (preferred option)
- (2) Indicates additional secondary option

Connectivity information and preferred submission options for Kodak NexPress, Prosper, Kodak Digimaster, and Kodak Versamark presses with Kodak and Creo Color Server front ends

Digital press / front end	Submission options
NexPress S2100/S2500/S3000/M700 with NexPress front end 8.5 (minimum version) or 12 (recommended)	(1) JMF (2) JDF hot folder (2) PDF hot folder
NexPress S2500/S3000/M700 with Creo Color Server running NexPress Vcs front end 10.231	(1) JMF (2) JDF hot folder (2) PDF hot folder
Kodak Prosper 6000 with Kodak 700 Digital Front End version 4.0	(1) JDF hot folder (2) PDF hot folder
Digimaster with Digimaster front end 7.01 Note: Integration with Kodak SmartBoard Document Mastering software is required in order to create SmartBoard job tickets and to enable connectivity.	(1) LPR
Versamark VL2000 with Creo Color Server running Print Manager 710	(1) JMF (2) JDF hot folder (2) PDF hot folder

Connectivity information and preferred submission options for HP Indigo presses with HP and Creo Color Server front ends

Digital press / front end	Submission options
HP 1050/3050/3500/5000/5500 with Creo Color Server running Production Stream 1.2	(1) JDF hot folder (2) PDF hot folder
HP 7000 with Creo Color Server running SmartStream or Production Plus 1.0	(1) JMF (2) JDF hot folder (2) PDF hot folder
HP 3050/3250/5000/5500/7000 with HP running Production Flow	(1) JDF hot folder (2) PDF hot folder
HP 3050/3250/5000/5500/7000 with HP running HP Indigo SmartStream Production Pro (minimum version 3.5, for JDF Bi-directional Communication support use SmartStream Production Pro 4.6 or later*)	(1) JMF (2) JDF hot folder (2) PDF hot folder

**Connectivity information and preferred submission options for Konica Minolta bizhub Pro presses with
Creo Color Server and EFI Fiery front ends (minimum EFI version is 9 R2;
recommended version is 10 or FS200 Pro*)**

Digital press / front end	Submission options
Konica-Minolta bizhub PRO with Creo Color Server running IC-301	(1) JDF hot folder (2) PDF hot folder

Konica-Minolta bizhub PRO with Creo Color Server running IC-304	(1) JMF (2) JDF hot folder (2) PDF hot folder
Konica-Minolta bizhub PRESS C7000/C6000, C8000, with EFI Fiery	(1) JMF
Konica-Minolta bizhub PRO C6500/C6501/C5501, C65hc, ColorFORCE 8050 / bizhub PRO C500 with EFI Fiery	(1) JMF

Connectivity information and preferred submission options for Konica Minolta and Komori presses with Konica Minolta front ends

Digital press / front end	Submission options
Konica Minolta bizhub PRESS C7000 with IC-601, IC-602* and IC-603* DFE	(1) JMF
AccurioPro KM-1 with Konica Minolta IJ-manager*	(1) JMF
Impremia IS29 with Komori IJ-manager*	(1) JMF
Impremia NS40 with Komori DFE	(1) JMF

Connectivity information and preferred submission options for Xerox DocuTech, Xerox DocuPrint, and Xerox DocuColor presses with Xerox, EFI Fiery, and Creo Color Server front ends

Digital press / front end	Submission options
Xerox iGen3 with Creo Color Server running Spire 5.0.103 SP1	(1) JMF (2) JDF hot folder (2) PDF hot folder

Xerox iGen4 with Creo Color Server running Xerox CX print server 1.0.d292	(1) JMF (2) JDF hot folder (2) PDF hot folder
DocuColor 7000/8000 with Creo Color Server CX 7000	(1) JMF (2) JDF hot folder (2) PDF hot folder
Any other Xerox press with Creo Color Server running Spire or Xerox CX print server	(1) JDF hot folder (2) PDF hot folder
Xerox 5000/5252/6060/7000/7000AP/8000/8000AP/DocuPrint B&W/DocuTech B&W/242/252/260 with Xerox running Xerox FreeFlow (Xerox DocuSP)	(1) JDF hot folder (2) PDF hot folder
Xerox 4112/4127, Xerox Color 550/560 Printer, Xerox Color 800/1000 Press, Xerox DocuColor 242/252/260, Xerox DocuColor Xerox 6060, Xerox DocuColor 7000/8000, Xerox DocuColor 8000AP, Xerox iGen3 90/110, Xerox iGen4 with EFI Fiery	(1) JMF

Connectivity information and preferred submission options for Canon and Ricoh presses with EFI Fiery front ends (minimum EFI version is 9 R2; recommended version is 10 or FS200 Pro*)

Digital press / front end	Submission options
Canon imagePRESS 1135/1125/1110, C1/C!+, C6000, C6010, C7000VP /C6000VP, C7010VP/C6010VP with EFI Fiery	(1) JMF
Canon imageRUNNER 5050/5055/5065/5075/7086/7095/7105, C3880 (Japan) /4080/4580/5180/5185 with EFI Fiery	(1) JMF
Aficio Color 3260C/5560, Aficio MP C550EX/C700EX / Aficio MP C6000/C7500, Aficio MP C6000/7500, imagio MP C6000/7500 with EFI Fiery	(1) JMF

Ricoh Pro 907EX/1107EX/1357EX, Pro C720/C720S, Pro C751/C751EX /C651EX, Pro C900/C900S, Pro C901/C901S with EFI Fiery	(1) JMF
---	---------

Connectivity information and preferred submission options for Canon and Océ presses with Canon PRISMAsync Print Server mark 7.2 and above

Digital press / front end	Submission options
Océ VarioPrint i-series / PRISMAsync mark 7.2 and above	(1) JDF
Océ varioPRINT iX-series / PRISMAsync mark 7.2 and above	(1) JDF
Canon varioPRINT 140 series / PRISMAsync mark 7.2 and above	(1) JDF
Canon imagePRESS C10000VP & C10010VP series / PRISMAsync mark 7.2 and above	(1) JDF
Canon imagePRESS C850 & C910 series / PRISMAsync mark 7.2 and above	(1) JDF
Océ VarioPrint 6000 series / PRISMAsync mark 7.2 and above	(1) JDF

Connectivity information and preferred submission options for Ricoh Pro presses with Ricoh TotalFlow Print Server DFE

Digital press / front end	Submission options
Ricoh Pro C71XX and C91XX series with Ricoh TotalFlow Print Server R-61* /R-61A* or R-60*/R-60A*	(1) JMF

Connectivity information and preferred submission options for Landa presses with Landa DFE

Digital press / front end	Submission options
S10 and S10P with Landa DFE	(1) JDF hot folder

* Supports JDF Bi-Directional Communication licensing option 015-01280A-145

For details about the level of integration with specific digital presses, see the *Prinergy Digital Print Compatibility Matrix*.

Note: Direct connectivity has been tested and validated for the NexPress digital production color presses. Direct connectivity has not been validated for all digital presses that are run by the Creo Color Server software.

Unmanaged connections

The submission options for unmanaged connections are:

- Unmanaged JDF hot folder
- Unmanaged content hot folder

Devices that support managed JDF hot folders also support unmanaged JDF hot folders. Similarly, devices that support managed content hot folders also support unmanaged content hot folders. See the tables above to determine connection support for specific devices. For more information about connectivity between Prinergy and digital presses, contact your service representative.
