

Updating Prinergy Evo software

Data is not migrated when switching between installed versions. After changing the active version, you must connect to, reinstall, and start the Prinergy Evo Client software. See the *Prinergy Evo Installation Guide* for more information.

To update your Prinergy Evo system to Prinergy Evo 9.0 you must:

- Have 72 GB of free disk space on the Prinergy Evo server computer
- Update the Server to Windows 2019 or Windows 10 Pro
- Update the Prinergy Evo Server software
- Update the Prinergy Evo Client software
- If you are updating a version prior to Prinergy Evo Workflow 6.1.2, please contact your Kodak service representative.

Downloading the Prinergy Evo installer from the Kodak Partner Place portal

1. Go to <https://partnerplace.kodak.com>.
2. To log in, enter your email address and password.
3. On the **Service & Support** tab, select **Search Knowledgebase Answers**.
4. Search for the Prinergy Evo Workflow downloads for your version.
