

Connecting to, installing, and starting the Prinergy Evo Client Software on Windows-based Computers

Prinergy Evo software automatically installs the Prinergy Evo Client software on the Prinergy Evo server during the server installation.

1. Map the Windows client to shared Prinergy Evo server computer folders via mapped drives.
2. Install the Prinergy Evo Client software for Windows.
3. Start the Prinergy Evo Client software.

Connecting the Prinergy Evo Client to shared server folders on a Windows computer

1. From your Windows desktop, open Windows Explorer.
2. From the **Tools** menu, select **Map Network Drive**.
3. Complete the wizard instructions to map to your <Prinergy Evo server>/PgyEvoInstll folder.
4. Repeat steps 2 to 4, except map to **PgyEvoConfig**, **HotFolder**, and **JobData** shared folders.

Your Windows Explorer window displays the mapped shared folders.

Installing the Prinergy Evo Client on a Windows computer

1. On your Windows desktop, double-click the **PgyEvoInstll** shortcut to open the browser window.
2. In the **Windows** folder, double-click `PrinergyEvoClientSetup.exe`.
3. Click **Next** and follow the instructions in the wizard.
4. Click the **Install** button at the end of the wizard to install the Prinergy Evo Client software.

Installing Kodak plug-ins for Adobe Acrobat and the Refine PPD

From **Program Files (x86)/Prinergy Evo<version#>/Setup/Windows**, follow the instructions provided in the ReadMe files to install the Acrobat Plug-ins, the Prinergy VPS & VPS+ software, and the Prinergy Refine PPD.
