

# Requirements

Confirm that the workstation on which you are installing the Preps software meets these system requirements:

<b>Supported operating systems</b>	<p>macOS Monterey (12.x)* macOS Big Sur (11.x) Intel and M1 chips macOS Catalina (10.15) <b>Oct 1, 2023 - No Longer Supported</b> macOS Mojave (10.14) <b>Oct 1, 2023 - No Longer Supported</b> macOS High Sierra (10.13) <b>Oct 1, 2023 - No Longer Supported</b></p> <hr/> <p>Microsoft Windows 10 or 11 Pro Microsoft Windows 10 or 11 Enterprise Windows 2016 Windows 2019</p> <p><b>Note: The following Windows OS are not supported:</b> Windows 10 IoT Windows 11 IoT Windows 11 IoT Enterprise</p>
<b>Memory</b>	4 GB of RAM (available minimum)
<b>Hard disk space</b>	4 GB of available space
<b>Screen resolution</b>	1280 x 960 (minimum)
<b>Qualified Anti-Virus</b>	McAfee

**It is not economically possible for Kodak to individually test every processor model, subtype, or operating system, whether from Apple® or Windows®, Intel®, or AMD. We use current development hardware and software to build and test the Prinergy suite of software. We trust the millions of dollars of compatibility testing performed by the chip manufacturers and operating system vendors to ensure that PREPS will perform correctly on all systems.**

## Notes:

We recommend deploying any OS 12.x Intel and M1 Macs with caution. Consider first creating a dual boot environment or Time Machine backup.

Allow some time to ensure all software works well in your specific environment, before rolling out on a larger scale.

Please also see the Prinergy, ColorFlow, VPS+, Pandora and PLA Release notes for supported client workstations and known limitations.
