Kodak 900 Print Manager

For Kodak 900 PM is qualified with JDF Bi-Directional connectivity in Prinergy 9.5 please see New JTE Workflow - JDF/JMF with Device Track and Setup.

Set up a JMF connection between Prinergy and the Kodak Proper DFE Galil to submit digital print documents to Kodak Prosper 900 PM.

- Connect Prinergy to the Kodak 900 PM
- Test the setup for Kodak 900 PM

If your Prinergy server is on a network that uses a proxy server, you must bypass the proxy server in order to connect devices to Prinergy.

To do so, go to **Control Panel** > **Internet Options** > **Connections** > **LAN Settings**, and select the the **Bypass proxy server for local addresses** check box.
Note: You can also access this check box from the **Tools** menu in your Internet Explorer browser (**Tools** > **Internet Options** > **Connections** > **LAN Settings**).
