Konica Minolta

For Konica Minolta qualified with JDF Bi-Directional connectivity please see New JTE Workflow - JDF/JMF with Device Track and Setup

Set up a JMF connection between Prinergy Workflow and the Konica Minolta bizhub digital press.

- Connect Prinergy to Konica Minolta
- RBA—Add Web-to-Print sample rules (Konica Minolta)
- Test the setup for Konica Minolta

If your Prinergy server is on a network that uses a proxy server, you must bypass the proxy server in order to connect devices to Prinergy.
To do so, go to **Control Panel** > **Internet Options** > **Connections** > **LAN Settings**, and select the the **Bypass proxy server for local addresses** check box.
Note: You can also access this check box from the **Tools** menu in your Internet Explorer browser (**Tools** > **Internet Options** > **Connections** > **LAN Settings**).
