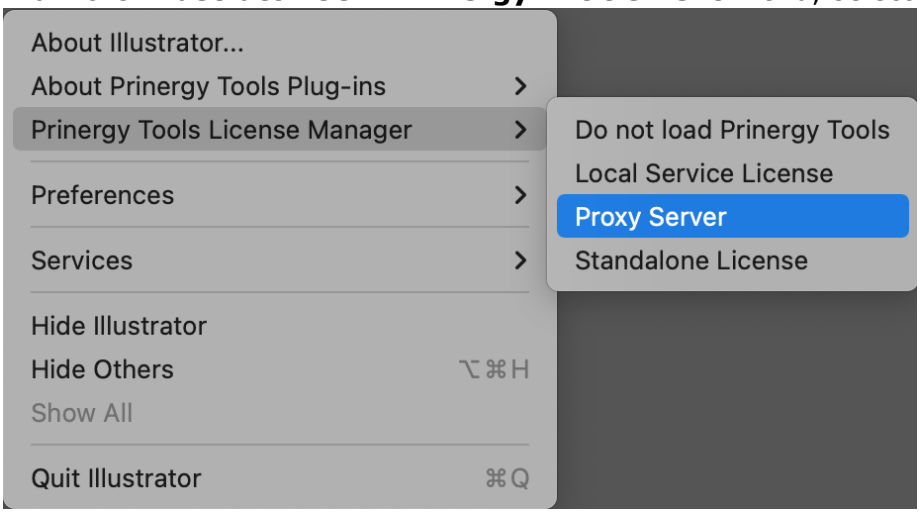
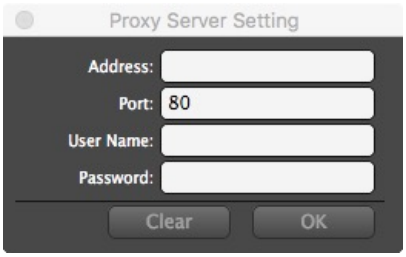
Proxy server setting

If you need a proxy server to connect to the Internet, configure the proxy server and then activate the license code.

1. Start Adobe Illustrator.
2. From the **Illustrator CC > Prinergy Entitlement** menu, select **Proxy Server**.



3. In the Proxy Server Setting window, type the following information:


Address	The proxy server address
Port	The proxy server port
User Name	(Optional) Proxy server user name
Password	(Optional) The user password for the proxy server
