_color patch

The displayed color patch demonstrates the effect of your adjustments.
The color produced before your adjustment is shown on the left. Your adjustment is shown on the right.

1. To display the color patch in a larger view for easier color comparison, click anywhere in the color patch.
2. Adjust color cast, lightness, or both by the following:

-   Use the lightness (L*) slider to make the color darker or lighter. You can also enter the **L*** value directly in the **Color Change** columns.

-   Use the cast (a*b*) selector to adjust the color cast. You can also enter the **a***, **b*** values directly in the **Color Change** columns.
