# Time Series Chart: Vertical

**<u>Vertical Time Series Chart:</u>**

Vertical Time Series charts can highlight many different things.

- Peaks and valleys over a window of time based on your query.
- Comparative items in vertical lines against a time period
- It can also be shown as a pie chart.

Let's go through the various different options.

As shown for Cloud Archiving

**NOTE:** This chart was captured by using the Focus feature to enlarge to the maximum size.

- **X-axis** - highlighted with the **RED** line, it represents a time period. In this example, Year / Quarter / Month.

- **Y-axis** - highlighted with the **GREEN** line, it represents the amount of data in three categories: Archived / Retrieved / Deleted.
