# Job Activity Dashboard: InSite User Activity

In this discussion we explore the Job Activity dashboard with respect to InSite User Activity allows you to monitor and track user activity within Insite Prepress Portal. Both customer and staff users are tracked. The report allows you to monitor the number of sessions, first and last login time/date, average session time and total session time per user.

Note - the Insite User Activity Dashboard is compatible with IPP 9.0 and above. If you are using IPP 8.x, this Dashboard will not populate.
