

# Getting started with Dynamic Print Planning

Once you are logged in to the Kodak Dynamic Print Planning software, the sPrint One Console window appears. Before you go on, it is a good idea to get familiar with the navigation options in this window.

	Console elements
1	<b>Logo</b>
2	<b>Navigation:</b> The navigation tabs <b>Planning</b> , <b>Products</b> , <b>Resources</b> and <b>Configuration</b> lead to the four main areas of the console.
3	<b>Workspace selection:</b> This menu is for selecting a workspace. Each workspace holds its own, independent data.
4	<b>Workspace creation and editing:</b> Clicking the edit  icon enables you to create or edit a workspace.
5	<b>Documentation:</b> This icon opens the documentation.
6	<b>User menu:</b> This icon provides access to the user menu. Here, you can see details about your login credentials and edit your personal data. Depending on your rights you can also open the user administration.
