

Creating a new press

1. In the top bar of the Console, click the **Resources** tab.
2. On the **Resources** tab, select **Presses**.
3. In the **Devices** area, click the **Add new**  button.
4. In the Add Device dialog box that appears, leave the **Id** as is, and in the **Label** box, type `Offset 102-8`.
5. Under the **Type** list, make sure that the **Sheet** and **Offset** options are selected. Then, in the **Press model** list, select **8 color sheet-fed with perfecting unit**.

6. Click the plus sign on the **Working styles and layout** row to expand this section.
7. Under **Working styles and layout**, clear the **Work and tumble** and **Work and turn** check boxes.
Note: For the most effective calculation any costing information should be entered.
8. To save all changes, in the lower-right part of the screen, click **Save**.
9. In the confirmation message that appears, **Devices were saved**, click **OK**.
10. You have now created a new press with standard performance and cost values.
