Preps training wrap-up

Training wrap-up review

1. When you work with the **Properties** pane:
   a. You can view and edit the settings of selected job items
   b. You can select an item in a workspace, summary list, or **Products** list to display its settings
   c. All applicable panes and lists are dynamically updated with your changes
   d. All of the above
2. While browsing the fold pattern catalog, you can rotate and flip a pattern and save any changes as a new fold pattern.
   a. True
   b. False
3. Layouts that you create but don't save as templates are saved with the job and are added to the **Layouts** pane so that they can be used for other jobs.
   a. True
   b. False
4. To access the **Mark Rules Editor**:
   a. Select **File** > **Mark Rules**
   b. Right click in the **Marks** list of the **Resources** pane
   c. Go to **Preps \Utilities\Preps Mark Rules Editor** and launch **PrepsMarkRulesEditor**
   d. Select **Resources** > **Mark Rules Editor**
5. After adding files to Preps, you must autogang all of them at once.
   a. True
   b. False
6. When working with advanced layouts, such as come-and-go layouts, you'll mostly use the:
   a. **Press Runs** view
   b. **Pages** view
   c. **Assembly** view
   d. Any of the above
