

Preps video series: Review of online training

Partner Place Answer ID [72700](#) (no login required) contains a collection of videos that are intended as a "refresher" resource for trained users. They provide students who have attended Preps online training ([Preps Standalone operator training SD-0015-66](#) or [Preps for Prinergy Connect training SD-0015-71](#)) with a recap of the material covered in the training. They are not meant to be a complete self-paced training solution.

For the most comprehensive and efficient training outcomes, new Preps users are encouraged to use instructor-led Preps courses and start-up assistance.

- For more details about the Preps (and other UWS software) product training offered in North America, see the [KODAK Unified Workflow Solution \(UWS\) Course Catalog for North America](#).
- For Preps and other UWS products, see also the [Catalog of KODAK self-paced UWS training materials](#).

More Preps online training recap videos are being developed. They will be posted in Partner Place Answer ID [72700](#) when they are available.
