

Creating a CAD file from a Pandora Die Layout (Prior to Pandora 8.4)

Use this procedure to create a CAD (CFF2) file from a Pandora job created with the Smart Layout feature. The example used in this procedure is a Pandora job that used Smart Layout technology that contains only a CFF2 file. To create the CAD file, you will:

- [Export the layout from Pandora as a PDF file.](#)
- [Open the PDF file in Adobe Illustrator and save it as an EPS file.](#)
- [Open the EPS file in CAD Correct, where the CFF2 file will be created.](#)

To perform this procedure, you must have the following software installed on your computer:

- Kodak Pandora Pro version software that supports the Smart Layout feature
- Adobe Illustrator
- Kodak CAD Correct software
