

Color map PDF pages tasks

You receive input files from your customer and need to verify all colors incorporated in the file, including spot colors. You need to refine the input files to view this information.

- [Create a job](#)
- [Copy an input file to the job folder](#)
- [Add the input file to the job](#)
- [Refine the input file to verify color information](#)

Create a job

1. If it is not already open, start Prinergy Workshop.
2. In Job Finder, right-click your main group, and choose **New Job**.
3. Type the job name `XX_Color_Map` (where `<XX>` represents your initials).
4. Click **Create**.
5. Minimize the Job Manager window.

Copy an input file to the job folder and add input files to the job

1. From your workstation, locate: `Prinergy Activity Practice Files / Act_05_Color Map / Input File`
2. Restore Job Manager.
3. Open the `Input File` folder.
4. Drag the `Print Buyers Guide.pdf` and the `Color Mapping.pdf` files to the Job Manager's **Input Files** area.
5. In the Add Input Files dialog box that appears, under **Options**, click **Select** and select the **1stRef-Normz** refine process template.
6. Click **OK**.
Your files are copied to the `UserDefinedFolders` folder.
7. In the Start Process dialog box, click **OK** to start the Refine process.
Minimize the Job Manager window.

Verify color information

1. Select the **Pages** pane. From the **View** menu, choose **Visible Columns..**
2. Place a check mark beside **Page Colors**. Click **OK**.
3. Locate the **Page Colors** column and verify the colors embed in the pdf files.
