Review questions for Activity 18

Answer or consider the following:

1. What are the steps used to create an imposition proof process template?
2. Things to think about: Based on the type of customers you have, and their choice of proofing requests, can you use the supplied imposition proof process templates shipped with Prinergy, or would it be more effective to create your own customized process templates? If so, what options would you enable in the process template?
