

Importing a SmartMark

If you have created a SmartMark in Pandora, import it into the **Marks** tab. Importing a mark copies it to the marks folder that is specified in the default preferences.

For information about creating SmartMarks, see the [Pandora User Guide](#).

1. If the **Marks** tab is not currently selected, click the **Marks** tab.
2. Click the **Import mark** button.
3. In the Import Mark dialog box, browse to the location of the mark file, select the file, and click **Open**.
