

Reviewing JTP status column definitions

This table describes possible entries in the **Status** column of the JTP status dialog box. Use the **System** menu in the Prinerger Evo Client software to open the JTP status dialog box.

| Entry in Status column | Definition |
|--------------------------|---|
| Starting | JTP or pool is in the process of being added to the server. |
| Running | JTP or pool has been added to the server and is ready to use. |
| Stopping | JTP or pool is in the process of being stopped. |
| Stopped (offline) | JTP or pool has been added to the server but is temporarily disabled. |
