

Renaming user library colors

1. From the **Configure** menu, select **Color Database Editor**.
2. In the Color Database Editor dialog box, **Color Libraries** list, select a user library.
3. In the **Color** list, select the color you want to rename.
4. From the **Configure** menu, select **Rename Color**.
5. In the Rename Color dialog box, **New color name** box, type the new name for the color.
6. Click **OK**.
