

Release Floating License

You can release the floating license instance for the current user in Local Service License Window on workstation A if you'd like to use Prinerger Tools on a different workstation B.

1. Start Adobe Illustrator.
2. From the **Illustrator CC > Prinerger Tools License Manager** menu, select **Local Service License**.

3. Click **Release Floating License** button, then you should be able to launch and use Prinerger Tools on another workstation.
