

Stopping Prinergy

Use Prinergy Administrator to stop the Prinergy Server software on one or more servers.

1. From the **File** menu, select **Stop Prinergy**.
2. If you have more than one Prinergy server, in the Stop Prinergy dialog box, perform one of the following actions:
 - To stop Prinergy on all Prinergy servers in the Prinergy system, select **All Servers**.
 - To stop Prinergy on the most recently selected server(s), select **Selected Server**.
3. (Optional) In the **Reason for Shutdown** box, type the reason for stopping Prinergy. This information is logged in the Windows operating system event log to assist with troubleshooting.
4. Click **Stop Prinergy**.

Prinergy may take a moment to shut down. You can watch the processes shut down in the **Processes** pane.
