

View your Prinerger licensed options

Use PLAS to view information about the Prinerger system installed at your site, including your licensed options.

1. In PLAS, click **View registered products**.
2. Select your site, select the Prinerger product that is installed at your site, and click **Continue**.
Information about your Prinerger system is displayed, such as the product serial number and version.
3. To view the options that are licensed for your Prinerger system, click **Look up licensed options**.
Your licensed options are listed with part numbers and descriptions.
