

Starting or stopping a JTP

Start or stop a JTP and view a JTP's status on the **JTPs** tab.

1. In the right pane, click the **JTPs** tab.
2. Perform any of the following actions:
 - If the JTP is in **Stopped (offline)** status, right-click it, and select **Start JTP**.
 - If the JTP is in **Ready** status, right-click it, and select **Stop JTP**.
 - If the JTP is in **Starting** or **Stopping** status and the status does not change for at least two minutes, right-click it, and select **Stop JTP Now**. When a confirmation message appears, click **OK**.
3. The **Status** column of the **JTPs** tab displays either **Stopped (offline)** or **Ready**.
