

Configuring thumbnail compression and resolution

Determine the compression and resolution of thumbnails that Prinergy generates and displays in **Thumbnails** view of Workshop.

1. From the **Tools** menu, select **Configure System**.
2. In the Configuration Options dialog box, click the **Thumbnails** tab.
3. Set the following options:
 - **JPEG Compression Quality**: Enter a value between 1 and 100.
 - **Thumbnail Resolution**: Enter a value between 1 and 300.
4. Click **OK**.
5. Stop and restart Prinergy.
