

Monitoring Prinergy Configuration Backups

You can view the status of the current backup as well as information about the backup sets that are on the system.

1. Click **Tools > Backup** to display the Prinergy Configuration Backup dialog box.
The **System Backup Status** pane on the left shows the status of backup sets.
2. To display details about a backup set, click the backup set in the **System Backup Status** pane to view the details in the **Information** pane on the right.
