

Fixed Bugs in Prinergy Workflow 11.6

PRINERGY-54037	PDF Vector Output updates header tag to PDF 1.3 when Output Intent is not "Preserve Embedded"
PRINERGY-54216	The wrong error message pops up when the duplicate job is created by RBA rule.
PRINERGY-50963	Output fails with ColorMatch error "ColorMapping Pre-Processing Failed" if a spot with an ICC-based ACS is mapped to a Process Color
PRINERGY-54367	LPV: Unselected versions output to PDF if you are using certain variables and outputting a separation that belongs to multiple versions
PRINERGY-54457	Precheck should not fail with "Oracle installer should not contain space" message when Oracle is not being updated
PRINERGY-53005	PDF Edit checkbox should be removed from Refine-Optimize section in Process Templates
PRINERGY-54328	macOS 26 (Tahoe) - Workshop client installer does not complete
PRINERGY-54497	PDF Vector Output: Text goes missing when PDF edited in Acrobat or output on Screen Rip or Oris Rip
PRINERGY-54486	RBA - Copy/Move action corrupts certain files when credentials are used in ruleset (REGRESSION)
PRINERGY-54468	RBA Validation Actions are missing in 11.5
PRINERGY-53261	Create index on table DBCS_PREFLIGHTREPORTDETAILS because destroy job takes a long time
PRINERGY-50618	Destroying jobs is slower than it should be on some systems
PRINERGY-54540	Prinergy (Workshop) freezing up on daily basis. Added indexes for Preflight+ tables.
PRINERGY-54503	New "PersistedDataMigrationLog" folder grows to 10GB at some sites, filling up the C-drive and potentially breaks Prinergy upgrades
PRINERGY-54532	RBA Manual triggers freeze Workshop for ~4 minutes. Select Job Filter removed.
PRINERGY-53930	Regression from 9.0.2 - After re-refining the pages, Separation CF values back to the Default Value defined when creating the Custom Field
PRINERGY-53511	PTaskD occupies 100% CPU and not release

PRINERGY-54506	APPE: halftone dots split and repeated on output. APPE Rip update to APPE 6.3.6010.0.
PLUGINS-1111	Compare not detecting all ink differences on Mac OS
PLUGINS-1124	Certain files crash the Compare Plugin with Unexpected error occurred during processing
PLUGINS-1108	Shading pattern shifts when you run the Geometry editor on certain PDF
PLUGINS-1107	Multipage PDF with blank page crashes Compare plugin
PLUGINS-791	Kodak plug-ins toolbar icons missing on Macs with Retina display (only generic block icons appear)
