

Outputting a PDF using Export

This is the recommended method of outputting QuarkXPress files. This method is available in QuarkXPress 7 and later.

Make sure that in the Preferences dialog box, on the **PDF** tab, **Create PDF** is selected.

1. In the QuarkXPress software, open the document.
2. Select **File > Export > Layout** as PDF.
3. Select the PDF style that you want to use.
