

# Workshop menu in Process Template Editor

**Note:** This menu is available only when running Workshop on a Macintosh client.

## About Prinerger Workshop

Displays information about Workshop, including the version number, a list of licensed features, and the server name.

## Preferences

Use to view and modify Workshop preferences. When you select this menu item, the Workshop Preferences dialog box appears.

**Note:** On a Windows client, this menu item appears under the **Edit** menu. On a Macintosh client, it appears under the **Workshop** menu.

## Quit / Quit Prinerger Workshop

Quits Workshop. Any open Workshop windows are closed.
