

Creating process template groups

You can create a new process template group when you create a new process template, or directly in Process Template Editor. To create a new process template group from Process Template Editor:

1. Open Process Template Editor.
2. Perform one of the following actions:
 - Select an existing process template type, process template group, or process template, and then from the **File** menu, select **New Process Template Group**.
 - Right-click a process template type, and select **New Process Template Group**.
3. Type a name for the new group, and press Enter.
