

Save APA File as dialog box

Unlabeled list and results area

Selecting an item in the list at the top left of the dialog box displays that item's contents in the box below.

When you select:

- **Volumes**, the volumes in your system appear
- A volume name, folders at the root of the selected volume appear
- A folder name, files within the folder appear

The path of the displayed item in the list appears in reverse order, for example, folder name followed by volume name.

Show Hidden Files

Select this check box to include hidden files, such as system files, in the results.

You can set the default selection of this check box on the **View** tab of the Workshop Preferences dialog box.

Save APA File as

Saves a new APA file to the location that you specify with a file name that you specify.

APA files must be stored in the <job folder>\Control folder for the job to which you want to apply the APA files.

The only valid file names are Job.apa, Job.v1.apa, Job.v2.apa, Job.v3.apa, and so on.

Volumes

Displays all volumes in the Prinergy system.

Job Folder

Opens the job folder for the current job.
