

Multiple bases

If necessary, you can use multiple bases in your job.

For example, consider the retail catalog scenario, but with different images for the English and the Spanish editions. This would require two bases.

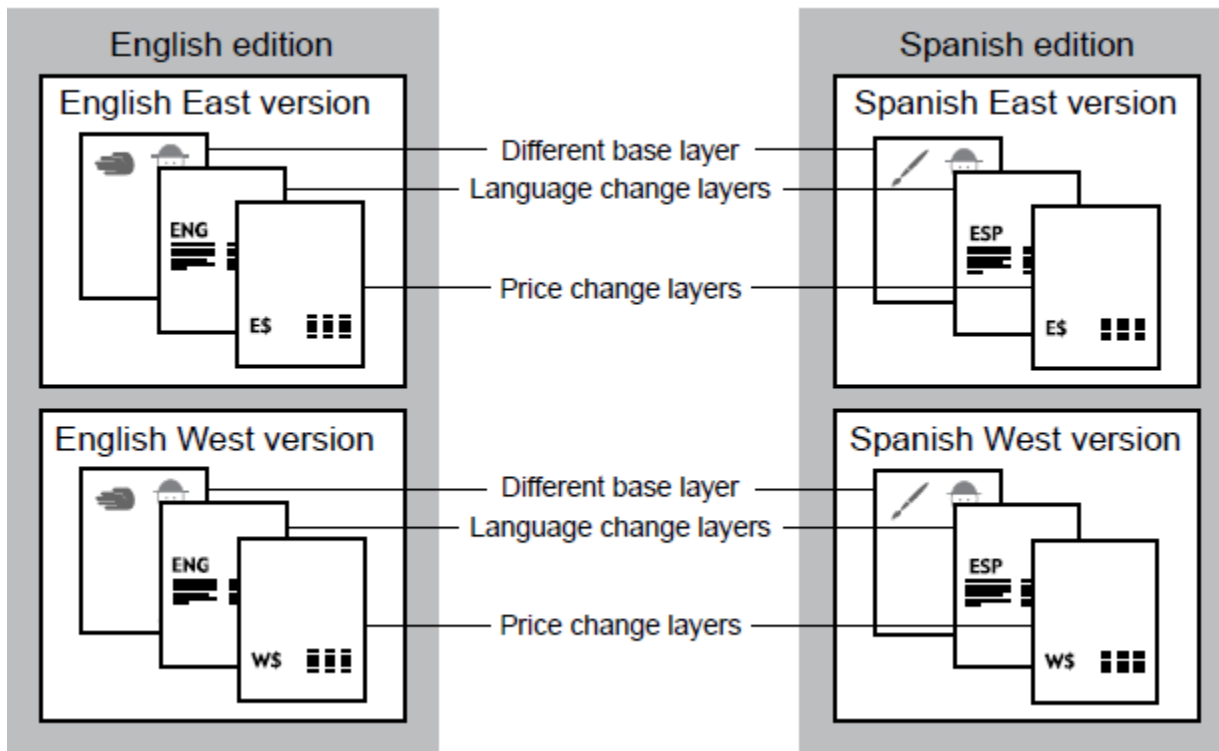

Figure 1. A job with two bases

The version plan would be set to the following:

Version	Base Layer	Change Layer 1	Change Layer 2
EngEast	Base1	Eng	East
EngWest	Base1	Eng	West
EspEast	Base2	Esp	East
EspWest	Base2	Esp	West

Layer	Layer Type	Colorants To Extract	Map To Plate	Page Name Pat...	Page Name ...	Page Numbe...
Base1	☒ Base ☐ Change	Cyan,Magenta,Yellow,Black	Do Not Map	☒		
Base2	☒ Base ☐ Change	Cyan,Magenta,Yellow,Black	Do Not Map	☒		
Eng	☐ Base ☒ Change	SpotEng	Black	☒		
Esp	☐ Base ☒ Change	SpotEsp	Black	☒		
East	☐ Base ☒ Change	SpotEast	Black	☒		
West	☐ Base ☒ Change	SpotWest	Black	☒
