

Reorder Page Assignments dialog box

Use this dialog box to reorder page assignments in a legacy versioning job.

list

Lists the pages assigned to the selected position, and their order determine the order in which they will be printed. This feature is designed for versioning.

Pages at the top of the list print over pages at the bottom.

Move Up

Moves the selected page higher in the list.

The pages at the top of the list print over pages at the bottom.

The button is available only when the list contains more than one page.

Move Down

Moves the selected page lower in the list.

The pages at the top of the list print over pages at the bottom.

The button is available only when the list contains more than one page.
